He had already housed soven acres of new wheat, which, together with about 40 bushels of old wheat, a lumber wagon, and other property, was burned. It is supposed to be the work of an incendiary,-as the prebefore the fire was discovered.

It is currently reported that the Ministry lately sent one of their dupes to a certain quarter of the Riding, to learn the state of public feeling. A hole and corner meeting was heldcomposed of about one dozen persons-when, atter a spirited discussion, several left in disgust, and the meeting exploded. Of all places last. We have this week to record a singular circumstances by which a child of Mr. John Petch, fered to repair it. Several witnesses were the end of that period, we shall rejoice that about'two years old, met with a painful death. For a length of time past Mr. Petch's father has been troubled with a sore leg; and on Saturday the 18th inst., while Mrs. Petch was changing the linen on the bed, the child was playing upon the bed-clothes, and happening to have a slight sore upon the arm, it appears to have caught the infection. The following Monday the child lost the use of its arm altogether, the a cow and paid \$50 to bind the bargain; but next day it inortified, and on Tuesday he was a corpse. This painful encomstance should learn parents and guardians to be more careful.
